

# T8 | SURPRISINGLY ELEGANT SUPER-YACHT POWER SUPPLY PEDESTAL

Tallykey T8 is excellent quality in an elegant and innovative design. The model is manufactured in weatherproof and robust aluminium and therefore maintenance-free. The Tallykey T8 has a built-in energy-saving LED lamp at the top, so the supply pedestal can work as both work and mood setting light source and ensure your guest can see what they are doing even at night.

The T8 supply pedestal is provided with individual relays and meters. All outlets and sockets are mounted and placed vertically, so they save space and are easy to access for the users. This user-friendly and thought out design ensures many years of maintenance-free operation, and gives optimal return of your investment and strengthens the supply pedestal's timeless and elegant look.

All Tallykey supply pedestals are developed and manufactured at our factory in Denmark, where our skilled employees use robust and durable quality materials. All our products comply with all relevant standards and approvals for systems of this type. The pedestal itself is made of anodized aluminium, while bolts, shafts and screws are made of acid-proof steel. This means minimal maintenance and ensures you are always ready to welcome your guests in beautiful surroundings.

## INFORMATION ABOUT THE T8 PEDESTAL:

The pedestal is 145 cm high and is made of anodized aluminium and impact-resistant plastic with an LED lamp of 9,5 watts.

The pedestal can be mounted directly in e.g. a wooden pier with strong bolts, or mounted on a pole for embedding to make sure it is stable.

The pedestal/outlets are available as IP44 and 67.

T8 can be equipped with an internal cable bay for uncomplicated and safe terminal connection.

### Power outlets:

The pedestal is available with outlets up to 250A or terminal connection up to 630A.

**Water:** The pedestal is prepared for two water taps. Max. 5 bar. Option for straight and angled in 1/2", 3/4" or 1".

**Tallyweb:** A radio with built-in operation panel on the pedestal enables switch on/off for power and water with individual code.
